About me

I am a 28 year old software developer from Munich. I have graduated with a Master degree of Computational Science at the University of Regensburg. Ever since my first Hello World!, I am passionate about programming. I have created highly parallelised Lattice Quantum Chromodynamics simulations for the QPACE3 supercomputer using specialised C++ libraries during my academic studies, as well as business applications using Java since I started my professional career. Additionally, I am building cross-platform applications in my spare time.

Review

Alice approaches Wonderland as an anthropologist, but maintains a strong sense of noblesse oblige that comes with her class status. She has confidence in her social position, education, and the Victorian virtue of good manners. Alice has a feeling of entitlement, particularly when comparing herself to Mabel, whom she declares has a "poky little house," and no toys. Additionally, she flaunts her limited information base with anyone who will listen and becomes increasingly obsessed with the importance of good manners as she deals with the rude creatures of Wonderland. Alice maintains a superior attitude and behaves with solicitous indulgence toward those she believes are less privileged.
